What does it take to become a Network Member?

Our team will work with you and your foundation staff to unpack the requirements for Network Membership. If you are forming a new entity or foundation we can work alongside you to ensure that the legal structure and processes will ensure adherence to best practices already established by other Network Members.

▶ **Quality Leadership**

Does your leadership possess world-class expertise in grant-making and philanthropic matters? Are you committed to advancing global generosity with integrity and transparency?

▶ **Legal Structure**

Is your organization a nonprofit and following local statutes correctly? Can your entity receive and send charitable gifts internationally?

▶ **Operational Readiness**

Can you receive charitable contributions in your country? Do you have systems for operating a donor-advised fund in compliance with international best practices?

It's okay to ask questions!

Congratulations! You have entered the LEARNING stage of becoming a Network Member. We welcome questions of all kinds and are here to serve you as you seek understanding about a variety of topics.
